## SHOULD I TURN WATER OFF TO MY HOUSE WHEN I LEAVE FOR EXTENDED AMOUNT OF TIME?

**ANSWER:** Yes, that will prevent a flood in your home if something should leak while you are gone.

---

2

## WHAT CAN I PUT DOWN MY GARBAGE DISPOSAL?

**ANSWER:** Garbage disposals are made for cooked food only.

---

3

## HOW CAN I CLEAN MY GARBAGE DISPOSAL?

**ANSWER:** Run few cups of ice down with the water on, don't use any citrus.

---

4

## SHOULD I CLEAN OR DRAIN MY WATER HEATER?

**ANSWER:** Yes, once a year you should flush your water heater. Connect a hose to the valve on the bottom and let it flow through, don't turn water off on top.

---

5

## WHY DO I HAVE LOW WATER PRESSURE?

**ANSWER:** The age of your pipes could be causing low pressure. Over the years there becomes a build up with in the pipes and this will restrict the water flow causing low pressure. Also, a leak in your pipes could cause low pressure. Having your home repiped with new water lines will correct this problem.
